1. **PREAMBLE AND PURPOSE:**

2. This correspondence serves as a formal declaration to categorically refute and rebut the substantiated, malicious allegations currently targeting the character and international humanitarian initiatives of His Excellency Mr. Kidima Mubarak. His Excellency has dedicated his life's work to Community resilience and the welfare of those who have served our nations.

3. **EVIDENCE OF HUMANITARIAN CONTRIBUTIONS:**

14. **CONCLUSION:** We trust the International Community will uphold the standards of truth and allow tangible contributions to speak for themselves. We remain steadfast on our mission to stop the "madness of clever racism and envy" that seeks to undermine ethical leadership.

We look forward to your urgent positive action and formal response.

My special message to those who voted for me responding to my Members, "Thankyou" definitely, I also thank those who did not vote for me, please be aware that my journey began from here. I have received many times that if people feel safe and are not judged, they open up and positive changes are possible. I will continue my job of pushing things and progress. I have already written to the Prime Minister, the Premier of Western Australia and the Hon. Chris Wedel with a strong message that your rights should not be taken for granted, we all deserve happiness, success and a fair go for all. I made it clear that, if they don't comply, I will never keep my mouth shut and send out speakers.

Success is not the money we make, it is the difference we put into peoples lives. Therefore, I have forwarded three projects:

1. INTERNATIONAL SPECIAL ANTI-CORRUPTION UNIT WITHOUT BORDERS
 2. INTERNATIONAL SPECIAL WORLD WAR II VETERANS UNIT FOR AFRICA
 3. KIDIMA INTERNATIONAL, AVIATION REPORT AND EXPORTS PTY, LTD

Stop mistreating former NRA Kadogos, they deserve recognition and respect

The current situation is extremely based on good faith and deserves special regard to be treated in a manner so that the mistreatment, the gross violation and disrespecting the Kadogos, former National Resistance Army, or NRA, did not (recently) watched a video on YouTube regarding Kadogos trying out for help after a year without help.

Some of the reasons are that the Kadogos were not given any help because of enjoying alleged corruption in the army in direct violation of Article 5 of Universal Declaration of Human Rights.

It is my humble duty as a concerned citizen to call attention to the mistreatment of Kadogos and the violation of their rights. I am a former member of the NRA and I have seen the mistreatment of Kadogos first-hand.

Former National Resistance Army (NRA) soldiers in Uganda, some of whom were mistreated after the war.

I recently watched a video on YouTube of a former Kadogos trying out for help.

For several years, there are people who were mistreated during the 1980-1986 war, but they were not given any help. The President and the NRA commander-in-chief have not taken any steps to help the former Kadogos. All Kadogos in Uganda and the world over deserve better protection and support. It is my duty to call attention to the mistreatment of Kadogos and to support their rights.

How Uganda could position itself to benefit from carbon markets

The government of Uganda is currently considering various options to benefit from carbon markets. This includes investing in renewable energy and forestry.

To investigate further, the government should consider the following options: investing in renewable energy, forestry, and other carbon markets.

Investing in renewable energy and forestry can help Uganda benefit from carbon markets. This includes investing in solar, wind, and hydro power, as well as planting trees and protecting forests.

Opinion South Africa's gendered electricity crisis

Over the past 10 years, South Africa has experienced a gendered electricity crisis. This is due to the fact that women are more likely to be affected by power outages and have less access to electricity. The government should take steps to address this issue.

The ongoing crisis has impacted the rural poor and the efficiency of the economy. This is due to the fact that power outages are more frequent in rural areas and that the government has not invested enough in infrastructure.

Orlie Mackelot, Energy Expert, discusses the gendered electricity crisis in South Africa. She notes that women are more likely to be affected by power outages and have less access to electricity.
